SECTION 5: HEALTH HAZARD DATA

Occupational Exposure Limits:
OSHA PEL/TWA: Not established **PEL/STEL:** Not established
ACGIH TLV/TWA: Not established

Ingestion: Low Single Oral Toxicity: LD50 (Rat) : >2000 mg/kg.
Eye Contact: Minor transient irritation. No corneal injury likely.
Skin Contact: Only minor irritation. May be a skin sensitizer.
Skin Absorption: Not likely to be absorbed in toxic amounts.
Inhalation: Not likely a problem at room temperature. Vapors from heated material may be irritating.
Effect of Overexposure: None known.

First Aid Procedures:

Eyes: Irrigate with flowing water immediately for 5 minutes. Refer to medical personnel.
Skin: Contact will probably cause no more than irritation. Flush skin with water or soap and water. Wash clothing before reuse.
Inhalation: Remove to fresh air if effects occur. Consult medical personnel.
Ingestion: Low in toxicity. Induce vomiting if large amounts are ingested.

Note to Physician:

Eyes: Injury is unlikely. Stain for evidence of corneal injury. Consult ophthalmologist.
Skin: May cause moderate irritation. Treat as any contact dermatitis. Known or suspected weak sensitizer. Not likely to be absorbed in acutely toxic amounts.
Respiratory: Injury is unlikely.
Oral: Low in toxicity.
Systemic: Human effects not established. No specific antidote. Treatment should be based on the sound judgment of the physician and the individual reaction of the patient.

SECTION 6: REACTIVITY DATA

Stability: Stable under normal conditions. Prolonged excessive heat may cause partial degradation.
Incompatibility: Active acids and bases.
Hazardous Decomposition Products: None under normal conditions.
Hazardous Polymerization: Will not occur by itself, but masses of more than 3-5 pounds of product plus an aliphatic amine may cause irreversible reaction with considerable heat buildup.

SECTION 7: SPILL, LEAK AND DISPOSAL PROCEDURES

Action to Take For Spills: (Use appropriate safety equipment.) Soak in absorbent material or scrape up. Residual resin can be removed by use of non-flammable solvent such as methylene chloride.
Disposal Method: Do not dump into any sewers, on the ground or into any body of water. All disposal methods must be compliant with all federal, state and local laws and regulations.

SECTION 8: SPECIAL HANDLING INFORMATION

Ventilation: Sufficient to minimize vapor exposure if generated.
Respiratory Protection: None likely needed.
Protective Clothing: Clean, body-covering clothing. Disposable plastic or rubber gloves. Disposable containers and paper in work area.
Eye Protection: Safety glasses.

SECTION 9: SPECIAL PRECAUTIONS IN HANDLING AND STORAGE AND ADDITIONAL INFORMATION

Precautions to Be Taken In Handling and Storage: None except normal handling care. Practice good caution and personal cleanliness to avoid eye and skin contact. Avoid breathing vapors if generated.
